

ABOUT US

Global Infonet Staffing has been established to meet the growing need of IT Staffing for premier organizations that require technical expertise on demand. Our vast experience in sourcing highly talented IT professionals for Fortune 500 and Fortune 1000 companies have given us the ability to be at the forefront of IT staffing arena. We serve projects range from complex e-business and web development initiatives to enterprise wide application development and technical system support. The technology professionals we deploy, on either a contract, contract-to-hire or full-time basis, include software developers, project managers and database specialists. Our exhaustive screening process in recruitment ensures that you receive the best talent available. We also ensure that you'll be working with the best recruiters who demonstrate a sound understanding of industry-specific business operations. Our commitment to training translates to technically superior consultants who approach assignments with your ultimate satisfaction as the goal.

LONG-TERM CLIENT RELATIONSHIP

Global Infonet Inc. strives to establish a long-term “Partnership” with our clients and is committed to understanding our client’s core business. We value the diverse needs of our clients and therefore take an individualized approach to ensure their specific needs are met.

CAREER PLANNING

Global Infonet Inc. provides careful career planning for all its professionals. Regular performance appraisals and assessment of employee interest and aspirations backed up by appropriate training and work allocation provides the key to skill enhancement and career growth.
